## A BROADS-EYE VIEW 2

### MORE AERIAL PHOTOGRAPHS OF THE NORFOLK AND SUFFOLK BROADS

*Mike Page and Pauline Young*

Mike Page's aerial photographs of East Anglia have delighted an eager public, and his first book *A Broads-Eye View* became an instant bestseller followed by *Norfolk Coast From the Air* and *Suffolk Coast from the Air*. His photographs are featured regularly in the *Eastern Daily Press*, further adding to the public appetite for his superb aerial views. In *Broads-Eye View 2* we are taken on an aerial journey along the major rivers of the region each of which forms an integral part of that special area known as Broadland. The courses of the rivers Bure, Ant, Thurne, Yare, Chet, Wensum and Waveney are each followed from the air providing the reader with a unique viewpoint from which to discover and enjoy this wonderful landscape.

Important too are the changes revealed through the photographs particularly in the work undertaken in recent years to alleviate flooding in vulnerable areas. Mike's intimate knowledge of the region and his interest in flying and photography make him particularly well qualified to create this fine collection of aerial pictures.

Also available: *A Broads-Eye View, Norfolk Coast from the Air and Suffolk Coast from the Air*

Gorleston-born **Mike Page** began his working life as a boat builder but in 1973 in partnership with his wife Gillian began a garage business at Strumpshaw, east of Norwich. He's now semi-retired and his son Martin runs the garage, which gives him more time to pursue his flying and photographic interests. He has a considerable library of aerial and wildlife prints which he makes readily available. In addition he supplies newspapers with newsworthy pictures and recently has produced aerial photographs for the *Eastern Daily Press* in a series of supplements that have been very well received. His first major project was a number of videos and DVDs of the East Anglian Coast. His first book *A Broads-Eye View* also produced in partnership with Pauline Young, was a huge success, followed by their books *Norfolk Coast from the Air* and *Suffolk Coast from the Air*.

**Pauline Young** has lived in East Anglia for many years. She writes regularly for magazines and is a published children's author. She first teamed up with Mike Page, whom she has known in a flying context for a long time, when he began providing aerial pictures for her articles about the Norfolk Broads.

Bowthorpe, river in flood

Great Yarmouth harbour

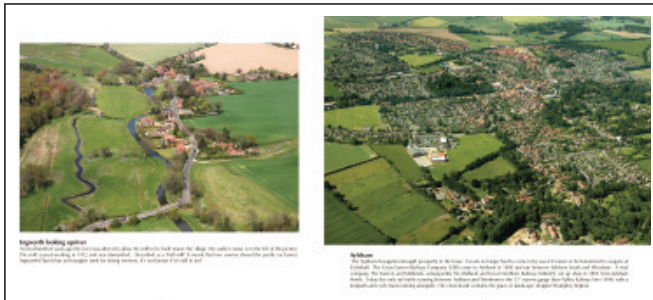

Hunsett Mill

Womack Water

Example of a double page spread.

**Womack looking upstream**  
The Womack waterway is a beautiful example of a natural waterway in the Norfolk Broads. It is a narrow waterway, only 100 yards wide, and is surrounded by lush green fields and trees. The water is clear and blue, and the sky is a pale blue. The sun is shining, and the overall scene is peaceful and idyllic.

**Bungay in winter**  
The town of Bungay is a beautiful example of a traditional Norfolk town. It is built on a narrow strip of land between the sea and a large inland waterway. The town is surrounded by snow-covered fields and water, and the overall scene is peaceful and idyllic.
