## A WINTER'S TALE – LAKELAND

*Graham Uney*

Long shadows of winter cast blue against snow-girt fells. Dales wallowing deep in the fresh snow of the newly arrived season. Lakeland in winter is a magical time. A time of excitement, of improbable beauty, and of magnificent landscapes. But winter can also bring hard weather to Lakeland, both for the folk who choose to make a home in these wild fells, and for the wildlife that ekes out a meagre living here during the dark months.

This book shows all sides of a Lakeland Winter: The beauty and majesty of snow-capped fells glinting against powder-blue skies; the exhilaration of the frosty air over the ice-fringed lakes; and the cosiness of little Lakeland settlements huddled deep against the cold.

A stunning collection of photographs, brought together in one book tells a colourful tale of Lakeland in Winter.

**Graham Uney** has spent a lifetime exploring all corners of Britain, as well as further afield. His photographic and writing work has appeared in countless magazines and newspapers, along with a handful of books and tourism brochures. Aside from working as a writer and photographer, Graham also works as a mountain walking guide. Until recently Graham's home was in the stark Northern Fells, where he lived in a tiny village on the flanks of High Pike.
