SKY HIGH **NORFOLK BROADS** AN AERIAL JOURNEY

Mike Page

There is no better way to experience the unique landscapes of the Norfolk and Suffolk Broads than to see them from the air. And there is no better photographer than Mike Page to take you on this aerial journey. His bestselling books of aerial photography of Norfolk and Suffolk have delighted and informed thousands of readers. Fascinating too are the changes revealed through the photographs particularly in the work undertaken in recent years to alleviate flooding in vulnerable areas. Mike's intimate knowledge of the region and his interest in flying and photography make him particularly well qualified to create this fine collection of aerial pictures. In this book the reader is offered a visual memento of the Broads through photographs specially selected by the author. Both for those who know the Broads well, or for those who are visiting on holiday, this gem of a book provides the perfect keepsake.

Gorleston-born Mike Page began his working life as a boat builder but in 1973 in partnership with his wife Gillian began a garage business at Strumpshaw, east of Norwich. He's now semi-retired and his son Martin runs the garage, which gives him more time to pursue his flying and photographic interests. He has a considerable library of aerial and wildlife prints which he makes readily available. In addition he supplies newspapers with newsworthy pictures and recently has produced aerial photographs for the *Eastern Daily Press* in a series of supplements that have been very well received. His first major project was a number of videos and DVDs of the East Anglian Coast. His first book *A Broads-Eye View* also produced in partnership with Pauline Young, was a huge success, followed by their books *Norfolk Coast from the Air*, *Suffolk Coast from the Air* and *A Broads Eye View 2*.
