## THE ROMANTIC NORFOLK COAST

*John Duckett*

The Norfolk coast is famed for its huge expanses of both sand and pebble beaches, salt marshes, intriguing fishing villages and wide, ever-changing skies. Where artists over the centuries have found inspiration for their paintings, photographer John Duckett has sought to capture the most evocative and romantic scenes along the Norfolk coast for inclusion in this book.

From the wild and windswept expanse of the Wash, through the traditional seaside resorts of Sheringham and Cromer, to the port of Great Yarmouth, and everything in between, this superb collection of photographs captures the mood of this special landscape, from stormy and windswept winters to beautiful summer sunsets.

The book is aimed at the romantic within us all – a superb pictorial celebration of one of Britain's most hauntingly beautiful landscapes.

Norfolk born photographer, **John Duckett**, focuses on capturing the unique skies and cloudscapes of his native county, making best use of the more dramatic light found at dawn and dusk.

John's interest in photography began in his teens and he has developed his unique style through experience and experimentation, with different camera settings and filters. For many years he worked in sales, covering the whole of Norfolk, and this stirred his passion for seeing how the light can completely change the atmosphere of a landscape. In recent years he has settled in north Norfolk and devotes more time and passion to his work as a photographer.

## TITLE INFORMATION – THE ROMANTIC NORFOLK COAST

*A covered boat in the late evening light at Blakeney estuary.*

*The setting sun highlights the layers of rock in the cliffs at Hunstanton.*

*A break in the storm clouds lights the reed beds looking towards the mill at Cley-next-the-Sea.*

*A wave starts to break up the reflection of Cromer in a pool of water on the beach.*

*The evening light over the pavilion and boating pond on the clifftop at Sheringham gives this an oriental feel.*

*Example of a double page spread.*
