

SUSSEX ADDRESS BOOK

Photography by Iain McGowan

Sussex is possibly the best known of all seaside counties and contains a remarkable variety of features and scenery within its 120km breadth from Thorney to Camber. Often described as the most English of counties, Sussex can almost be defined by the fresh salty tag of the sea air, and the soft, gentle expanse and wide views of the South Downs or of the distant Weald.

It is a county of tremendous, yet harmonious contrasts, a county of inexhaustible richness in both its heritage and physical geography. Iain McGowan, the internationally-renowned landscape photographer, based in Sussex where his roots have run deep since early childhood, carries on the great tradition of artists who have been stimulated by the area: through his lens he captures the essential beauty and character of Sussex.

Address books tend to be well used and have a long life. Along with important contact details, they keep track of the user's friends and acquaintances, tracing their lives over time and from place to place. And, if properly attended to, an address book eventually becomes a journal in itself, and an attractive and permanent keepsake. Whether bought as a gift or for personal use, this *Sussex Address Book*, with its superb pictorial reminders of the county, will provide years of pleasure.
